WATER MANAGEMENT POLICY

Water is so essential for life that it's simply impossible to imagine life without water. India has 16% of the world's population and only 4% of the world's water resources are available for use, and that too are depleting rapidly. The demand for water is expected to grow from 40 billion cubic metres (bcm) currently to around 220-bcm in 2025. The uneconomical and unethical use of water by human beings is the sole reason for the exploitation and deterioration this valuable natural resource. Thus, both quality and quantity of water are at stake and to be taken care of. It's the moral duty and social responsibility of each individual and community as a whole to contribute to conserve water and rejuvenate the water resources.

In this direction, our college has made efforts to ensure water conservation by implementing the following steps:

- To acquire the knowledge of Water conservation.
- Trained to Water Sharing
- Controlled Water Usage
- Practising the Drainage management
- To be Environmental Friendly and Protective
- To Avoid leakage of water from the taps
- Practicing to turn the tap off when not in use
- Regularly check the leakage of water in the toilets.
- Te Educate people to save the water
- To stop throwing the water unnecessarily on roads, instead this can be used for gardening and cleaning.

Policy Document on Waste Management

Overview: Waste management includes the processes and actions required to manage waste from its inception to its final disposal. It's of extreme importance or us as it reduces the effect of waste on the environment and helps reuse or recycle resources.

Scope: Awareness on Waste Management for staff and students of Krishna Mahavidyalaya .

Vision: The policy is designed to help us instill waste management awareness to our staff and students, to implement it to our own everyday activities helping us to realize our responsibilities and a sheer commitment to conservation of natural and man-made resources by implementation of waste management techniques..

Execution: We at Scholar are devoted to conduct waste management literacy programs through several awareness sessions, workshops and activities all directed towards the implementation of best mechanisms of waste management.

Tangible Measures: To abide by the policy ensuring best waste management techniques, our college has taken some tangible measures and key initiatives as following -

- To ensure the implementation of best mechanisms of waste management, we store bio-degradable and non-bio degradable waste separately.
- We have resorted to **vermi-composting** to convert organic waste into fertilizer further leading to reuse and recycling of waste, not only limiting to its purview to waste management but extending it further to its contribution to the environment.
- Awareness sessions to promote awareness on waste management.
- Periodical meetings between college staff and committee regarding formulation of rules and regulations leading to effective mechanisms for waste management.
- Regular cleaning and maintenance of waste management facilities.
- Different colored *Waste Bins* across the campus are placed at strategic locations.
- Safe disposal of hazardous waste which cannot be recycled or reused is adopted depending upon waste category.

Communication and Update: This policy is regularly communicated to our students, employees, internal and external stakeholders through various communication channels. The Waste Management Policy, objectives and targets are reviewed on a regular basis under the strict guidance of all the members of the college management.

In House Research Policy

Tertiary education is indeed a big investment. From an individual point of view, the advantages of research extend beyond having an impressive degree certificate. Through detailed research, individual develop critical thinking expertise, as well as effective analytical, research, and communication skills that are globally sought-after and incredibly beneficial. Ultimately, research is essential to economic and social development of our globalised society, forming the foundations government policies around the world. As Teachers are one of the most influential and powerful forces for equity, access and quality in education and key to sustainable global development.

That's why our college has some in house research policies these are described as:

1. College permit faculty members to attend seminars, workshop, faculty development programme on rotational basis.
2. Our college also provide time table adjustment as per their seminars, workshop, and faculty development programme.
3. College also provide time-table adjustment if any teacher wants to attend pre Ph. D. Course work.
4. Expert session by research expert to promote research activities.
5. Availability of Research books and journals in the library.
6. In house seminars for promoting research work on the topics like how to write research papers, journals, Review of the literature.
7. In house seminars for sharing the ideas or knowledge gain from faculty members.

College permit for all of the above facilities to teachers by considering college functioning will not suffer.
